

Los Angeles, California

One of the delights of producing the KLOS Local Licks Show for all these years has been seeing and hearing bands develop. JIMMY "O" is a prime example of this. His latest CD "*Barbed Wire and Silk*" is his best yet and you know we've been through it all. The disc is a pleasure to listen to and a gem to own. The sound on this CD is EAN TASTIC! Although it's Jimmy's solo release -- the band kicks ass.

I know that you were on your way to the airport with Jimmy when his segment aired on Local Licks (8/29/99). If you didn't get a chance to hear it, let me know and I can dub a tape for you.

It's been a pleasure. Let's do it again next time.

Best wishes

A handwritten signature in black ink that reads "Bill Hartew". The signature is written in a cursive, slightly slanted style.
